

Our CORE VALUES

FUN!

Theatre is all about fun! We want everyone involved, our young people, Committee, Production Team, volunteers, and of course our audiences, to enjoy themselves. We take theatre seriously, but we always make sure to have a great time doing it.

EXCELLENCE

We're committed to putting on top-quality performances. Even though we're a volunteer-run organisation, we never settle for "just okay" — we're always looking to improve and aim higher in everything we do.

TEAMWORK

Theatre is a team effort, and working together helps build valuable life skills like decision-making, communication, cooperation, and leadership. We're grateful to every single volunteer who helps bring our productions to life — it's a true team effort.

RESPECT

We believe the best way to teach respect is by showing it ourselves. That's why we expect everyone to treat each other with respect, including those in authority. And when we're performing, we always give it our all, because we respect our audience too.

INTEGRITY

We take good care of the resources and finances entrusted to us. Honesty and integrity are at the heart of our Company. By working in an environment that values these traits, our young people grow in character, learning commitment, discipline, dependability, and honesty.

LOVE

We absolutely love what we do! And we share that love with everyone who joins us on stage and in the audience. A huge thank you to our amazing volunteers, families, friends, and everyone who supports Big Bad Wolf. You're the heart of it all!

THANK YOU – we would not be able to do what we do every year, without you all.
